

The practice of evidence-based medicine involves combining individual clinical expertise with the best-available clinical evidence from systematic reviews.

The Cochrane Library - Evidence for healthcare decision-making

The Cochrane Library enables those who provide and receive health care, as well as those who are responsible for research, teaching, funding and administration of health care at all levels, to keep-up-to date with all the latest evidence in their field.

The Cochrane Library is a collection of evidence-based healthcare databases:

- The Cochrane Database of Systematic Reviews
- Database of Abstracts of Reviews of Effects
- The Cochrane Central Register of Controlled Trials
- The Cochrane Database of Methodology Reviews
- The Cochrane Methodology Register
- Health Technology Assessment Database
- NHS Economic Evaluation Database

The Cochrane Library brings together in one place research on the effectiveness of healthcare treatments and interventions
